

Building Better Tomorrows, Today!

ENRICHED NEIGHBORHOODS

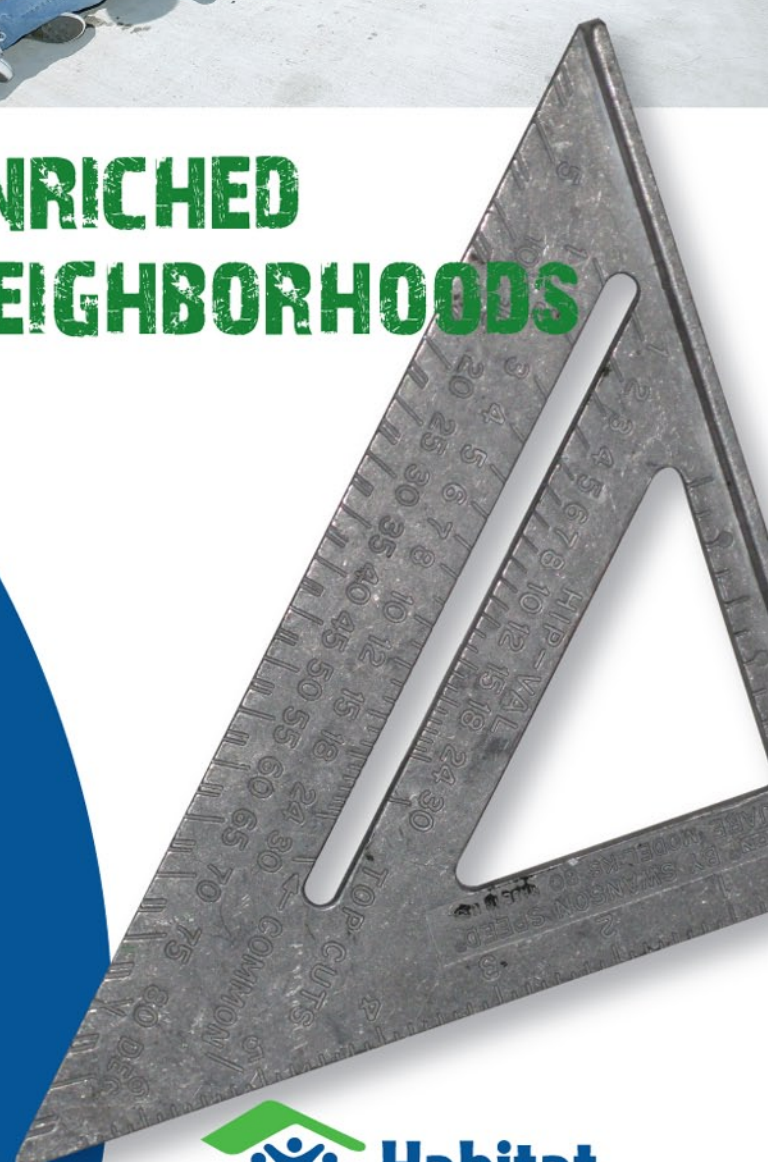

Our product is affordable housing, to be sure.

But our Habitat affiliate, serving north Los Angeles County, is breaking new ground. With our “enriched neighborhood model,” our families are being given the keys to success along with the keys to the house.

We are arming them with new skills to help successfully navigate life in the 21st Century. Our model brings social and educational services into the living rooms and neighborhoods where our families live – services like health information, dental hygiene, teen empowerment, and children’s programs, such as tutoring.

Information and referrals are also provided on affordable health care options, childcare, nutrition, English as a Second Language Classes – and other topics essential to health, wellbeing, and economic development. Our model utilizes opportunities that encourage children and teens to succeed in school. It also provides critical life skills that prepare kids for positive roles in adulthood.

This is a new model, and ours is a new Habitat for the 21st Century. We are lifting the “concrete ceiling” that impairs the lives of the working poor and limits their children’s futures.
