

Building Better Tomorrows, Today!

ATTENTION ALL TEACHERS!

You can help your students raise change, to make a change.

“Nickels for Nails” is the youth-led fundraising component of Youth United, our initiative that mobilizes youths, ages 5-25, to fully fund and build a Habitat for Humanity home. It is easy to help, and even the youngest child can understand the purpose, as the nickel jar fills up and the kids receive updates on a house being built.

This is a wonderful opportunity for students to see how donating extra nickels can make a life-altering difference for one deserving family.

Teachers, youth group coordinators and students who sign up will receive a coin collection container for their classroom, along with a how-to guide about starting a successful fund drive and information about the Habitat family they are helping to get a home. Teachers can also receive special curriculum to educate their students about the growing housing crisis and how everyone can help in the cause.

This is a valuable educational and life lesson. One that teaches we are blessed when we give to others who are less fortunate.
